HOW TO SAVE
MONEY!
When times are hard you'd like to know
How you can save your dollars;
The way to do it you will know
If you will read what follows:
A man obedient to the laws,
Who worked hard at his trade,
Could not supply his wants—because
It cost more than he made.
He met a friend: Says he, "I guess
I look thread-bare and rough;
I'd like to buy my wife a dress
But can't save up enough."
His friend replied, "It won't cost much
To buy your wife's dry goods
If you will go to the cheap store—
The store of Row & Woods."
He took what little he could save
To Row & Woods' store,
And bought his wife a handsome dress
For half one cost before.
With other goods, and Hats and Shoes,
Himself he there supplied
And still has money left to use
And some to lay aside.
P. S.—See annexed List of Prices. Other goods at like reduced rates.
Muslins from 10 to 22 cents.
Calicoes from 8 to 18 cents.
French Lawns from 18 to 30 cents.
Mozambiques from 25 to 28 cents.
Alpacas from 30 to 70 cents.
Delaines from 20 to 25 cents.

MAKE HOME BEAUTIFUL.

Make your home beautiful—bring to it flowers;
Plant them around you to bud and to bloom;
Let them give life to your loneliest hours—
Let them bring life to enliven your gloom.
Make your own world—one that never has sorrowed—
Of music and sunshine, and gold Summer air,
A home world whose forehead care never has furrowed,
And whose cheek of bright beauty shall ever be fair.
Make your home beautiful; weave round its portal
Wreaths of the jessamine, and delicate sprays
Of red-fruited woodbine, with joy immortelle,
That blessens and brightens wherever it strays.
Gather the blossoms too—one little flower,
Varied verbens, or sweet mignonette,
Still may bring bloom to your desolate bower,
Still may be something to love and to pet.
Make your home beautiful; gather the roses
That hoard up the sunshine with exquisite art;
Perhaps they may pour, as your darkness closes,
That soft summer sunshine down into your heart!
If you can do so, oh! make it an Eden
Of beauty and gladness; remember 'tis wise;
'Twill teach you to long for that home you are needing,
That heaven of beauty beyond the blue skies.
Make your home beautiful! sure 'tis a duty;
Call up your little ones, teach them to walk
Hand in hand with the wandering angel of beauty,
Encourage their spirits with Nature to talk;
Gather them round you, and let them be learning
Lessons that drop from the delicate wings
Of the bird and the butterfly—ever returning
To Him who has made all those beautiful things.
Make home a hive, where all beautiful feelings
Cluster like bees, and their honey-dew bring;
Make it a temple of holy revealings,
And love its bright angel with shadowing wing.
Then shall it be, when afar on life's billows,
Wherever your tempest-tossed children are flung,
They will long for the shades of the home-weeping willow,
And sing the sweet song their mother had sung.

A WISE man has foibles as well as a fool; but the difference between them is, that the foibles of the one are known to himself, and concealed to the world; the foibles of the other are known to the world but concealed from himself. The wise man sees those frailties in himself which others cannot; but the fool is blind to those blemishes in his character which are conspicuous to everybody else. Whence it appears that self knowledge is that which makes the main difference between a wise man and a fool, in the moral sense of that word.

THE VILLAGE CHURCH.

The old church in the village lane,
By chestnut trees half hid from view,
Looks all divine—each window pane
Is stained with every mellowed hue,
Of purple, violet, and of gold,
As sunlight through the window streams
Where richly-painted figures hold,
Their glowing feast of sacred dreams.
Each window diamond-shaped appears,
Still lovely touched with sun or shade;
Or when the rain like brilliant tears,
At morn or evening o'er them wade.
The moss-grown walls, the gray old tower,
Are graven by the hand of Time;
And in the bells what mystic power,
What holy music in their chime!
And when the bells are hushed, a calm
Sublime and glorious fills the aisle;
While saints seem listening to the psalm,
With features carved into a smile.
The chestnut trees the windows shade,
And bar the sunlight on the floor;
That seems to flutter and to fade,
Like sea-waves breaking on the shore.
Far down the aisle the sunshine flows,
First on the painted window falls,
Till there each saintly likeness glows,
And tints the angels on the walls.
And when the organs peal no more,
When every word of praise has died;
The saints lie pictured on the floor,
In silent splendor side by side!

I KNOW THE WAY TO HEAVEN.—These words were spoken by little Minnie to little Johnny, who stood by her side looking on a picture book that Minnie had in her hand.
"You do?" said little John. "Well, won't you tell me how to get there?"
"O yes, I'll tell you. Just commence going up, and keep on going up all the time, and you'll get there. But Johnny, you must not turn back."
"Well," said Johnny, "I won't."
They had both been looking at a picture of our Saviour's head pressed with thorns, and the blood trickling down his face. This excited little Minnie's sympathies, and bending her little head, she kissed the face of the picture three times, and said aloud to herself:
"My mamma has been teaching me the way to heaven for a long time, and now I know the way so well that I can go myself."
Little Minnie is only three years old. How many grown folks are there that can say they they know the way to heaven, and can go by themselves?
Yes, Minnie has told you all the way—keep going up, for the way to heaven leads upward, while the downward way is toward hell—*Olive.*

"I COULD NOT FIND YOU, MOTHER."—Amid all the abominations and illustrations of the dark side of fallen humanity, seen at the station-houses, says the Boston *Herald*, one occasionally witnesses a scene in which the ludicrous or affecting stands out in the strongest colors. An incident of the latter class came under our observation recently. While in one of the station houses, our attention was attracted to a little boy three or four years of age, neatly dressed, playing on the matting with a cat, and apparently indifferent to the fact that he had wandered away from home, got lost on the streets, and had been brought in as a "lost child" by the police. He was talking in his childish way to the persons who noticed him, and no one would have dreamed that the fountain of suppressed grief was bubbling up so near to the smiling surface. Just then a plainly dressed woman rapped at the inner door of the office, and was invited in. She had hardly time to ask, in an agitated tone, if anything had been seen of a "lost darling boy," when the little fellow caught sight of her, and bounding to his feet, ran like a scared deer to her arms; then clasping his little arms around her neck, broke forth in a long pent-up agony of tears, exclaiming—"I could not find you, mother!" The scene was over in less time than we can tell it, but the effect produced on the bystanders, judging by what we saw on the faces of bearded men, will not soon be forgotten. The little fellow was the only child, who had been compelled to leave him a few minutes alone in the house.

A MARTYR BIRD.—The following beautiful incident is recorded in the Pittsburg *Dispatch:*
The noble deeds of robin-red-breast have been celebrated for generations in both song and story, and the tender sympathy which this bird is supposed to feel for stray babes has gained for it the highest opinion of the nursery. A painful little circumstance which will interest our young readers, and at the same time serve to confirm their regard for the robin, was brought to light after the fire at the residence of Mr. M'Callum, a week or two ago. In a tree near by, a robin had built her nest, and hatched her brood. The birdlings were too young to fly, and although the flames progressed, and the heat became more and more intense, the mother bird refused to forsake her nest, and perished in her efforts to protect her little ones from harm. The nest was afterwards discovered, and the parent was found, with her little brood still under her, but all were dead. What a wonderful instinct has the Creator bestowed upon this little creature, that would impel it to sacrifice its own life, in a manner so peculiarly painful, in its efforts to shield the helpless little ones committed to its charge! Surely, many men and women might learn a lesson of wisdom from this martyr bird.

"MY BOY DRUNK."—"Drunk! my boy drunk!" and tears started to the mother's eyes, and she bent her head in unutterable sorrow. In that moment the visions of a useful and honorable career were destroyed, and one of worthlessness if not absolute dishonor, presented itself. Well did she know that intemperance walks hand in hand with poverty, shame, and death, and his mother's heart was pierced as with a sharp pointed steel. Ah! young man if the holy feeling of love for her who bore you is not dead within you, shun that which gives her pain—adhere to that which gives her joy. If she is with her Father in heaven, shun that course of life which shuts the gates of heaven against you, and debars you from her society forever. The drunkard can never inherit the kingdom of God.

CARVING CHARACTER.—Did you ever watch a sculptor slowly fashioning a human countenance? It is not moulded at once. It is not struck out at a single blow. It is painfully and laboriously wrought. A thousand blows rough cast it. Ten thousand chisel-points polish and perfect it—put in the fine touches, and bring out the features and expression. It is a work of time, but at last, the full likeness comes out, and stands fixed and unchanged in the solid marble. So does a man carve out his own moral likeness. Every day he adds something to the work. A thousand acts of thought and will and efforts, shape the features and expressions of the soul. Habits of love, piety, and truth—habits of thoughtfulness, prayer, or generous, manly sympathy and feeling, all tell, and leave their impress upon the countenance. The character would be read in that countenance.

A WASHINGTON STORY.

Mr. Gay, senior of the National Hotel, Washington, bear quite a resemblance to the late General Cass upon which is told a good story.
A stranger who supposed that he knew Mr. Gay well put up at the National. Since this house has become a crack hotel at the Capital, it is quite full all the time, and the new comer was necessarily for the first night sent to the up-floor to sleep. Coming down stairs in the morning a little cross, he met Gen. Cass there, who had a fine suite of rooms in the hall. He stepped up to him and said:
"I'll not stand it! You have put me at the top of the house. I must have a room somewhere else, lower down."
Gen. Cass interposing nervously: "Sir, you are mistaken in the personage; you are addressing General Cass of Michigan."
Stranger, confusedly, "Beg your pardon, General—thought it was my old friend Gay. Beg a thousand pardons, sir. All a mistake—all a mistake I assure you."
The General passed out of the building, but soon returned; but as luck would have it, the stranger met him full in the face again, but in another position. This time he was sure he had met Mr Gay, for the Senator from Michigan he knew had just gone out. So the stranger stepped boldly up, slapped the General familiarly on the shoulder, exclaiming:
"By heaven, Gay, I've got a rich joke to relate. I met old Cass up stairs just now; thought it was you, and began cursing him about my room."
General Cass, with emphasis, "Well, young man, you have met old Cass again."
Stranger sloped, and he has not been heard of since.

THE COUNTRY CHOIR.—As I looked at such matters, nothing sweeter, or purer, or more delicious to a simple soul, can be conceived than the unaffected singing of a country choir. There is so little scientific fuss and professional palaver about it. And the melodies come out so full and clear,—a creation each by itself, rising and falling in its cadences like the steady swell of the sea! I know few things, for myself, more true and hearty. There stands the choral row, male and female, heads erect and mouths open wide, letting out soul and voices together; the fiddle squeaking with excitement to get the lead, and the hard working chorister, with quick eye thrown to one side or the other, actually singing down the whole! As for the melody itself,—so simple and direct, so plaintive, so stirring, filling the house as with a flood from floor to ceiling, and drifting out through the open doors and windows into the echoing streets, it is enough to move the most worldly heart that ever tried to mint itself into money. One hardly thinks he catches such seraphic strains again though he goes all the way from New England to Rome.

A PRACTICAL JOKE.—During the late war, while the Army of Tennessee, under General Johnston, lay encamped near Dalton, the following rich scene occurred:—There was a very popular dealer in newspapers there, a perfect Brobdignab in size, rivaling Daniel Lambert in rotundity of stomach. A regiment was there about to leave for Mobile, and our massive friend had some business to transact with the Colonel. So, puffing and blowing, he came up a few minutes before the train started. As he came up a soldier spied him, and called out:—"Boys, here he is."—Instantly the whole regiment was on the alert, and shout after shout went up—"Here he is, here he is!" Looking, dumbfounded, the fat man said: "What's up, gentlemen? What have I done?" "You're the very man that stole our big drum and swallowed it"—went up simultaneously. Struck with surprise, he did not know whether to laugh or get mad, but finally said: "Well, boys, if you'll stay till evening I'll eat you."

SCOTCH PERSEVERANCE.—One day, as a number of Yankees were amusing themselves by trying who could throw a stone farthest across a river, a Scotchman came up, and was looking on, when one of the Yankees asked him to try his strength. "Man, I could throw yoursel' across the river, far less a stone," was the reply of the Scotchman.—The Yankee wagered him a dollar he wouldn't. The stakes were handed over, and then the Scotchman took off his coat and bared his arms and lifted him up and threw him into the river. While the Yankee was scrambling out of the river, amidst the laughter of the bystanders, the Scotchman was busily engaged in rolling up his sleeves, and when the Yankee claimed the wager, he coolly replied, "I didna promise to dae't the first time though." The Yankee, however, declined to give him a second trial, and the stakes were handed over to the Scotchman.

A LESSON FOR LAZY WIVES.—One day a sturdy peasant was at work in the field amidst storm and rain, and went home in the evening, tired and drenched to the skin. His loving wife said: "My dear, it has been raining so hard that I could fetch no water, so I have not been able to make you any dinner. As you are wet through, I shall be obliged to you to fetch me a couple of buckets of water—you cannot get any wetter." The argument was striking; he therefore took two buckets and fetched some water from the well, which was at a considerable distance. On reaching his house, he found his wife comfortably seated by the fire; then lifting one bucket after another he poured the contents over his considerate partner. "Now wife," said he, "you are quite as wet as I am, so you may as well fetch water for yourself; you can't get any wetter."

CHILDREN'S FEET.—Life-long discomfort, disease and sudden death often come to children through the inattention or carelessness of the parents. A child should never be allowed to go to sleep with cold feet; the thing to be last attended to, see that the feet are dry and warm; neglect of this has often resulted in a dangerous attack of croup, diphtheria or a fatal sore throat.
Always on coming from school, on entering the house from a visit or errand, in rainy, muddy, or thawing weather, the child's shoes should be removed, and the mother should herself ascertain if the stockings are the least damp, and if so they should be taken off, the feet held before the

For Judge of the Supreme Court,

HON. HENRY W. WILLIAMS,

OF ALLEGHENY COUNTY.

REPUBLICAN COUNTY COMMITTEE.

There will be a meeting of the Republican County Committee, at the Eagle Hotel, Gettysburg, on Monday, August 19, at 2 o'clock, P. M.

A full attendance of members is desired.

EDWARD McPHERSON,
Chairman.

SUSPENSION OF MR. STANTON.

On last Monday a week, President JOHNSON requested Secretary STANTON to resign the Secretaryship of War. The same day, the Secretary declined, "for public considerations of a high character"—being the same phrase used by the President in communicating his request.

Matters remained in this position until Monday of this week, when the PRESIDENT suspended Mr. STANTON from his office as Secretary, directed him to cease to exercise any and all the functions pertaining to the same, assigned Gen. GRANT to act as Secretary of War, and directed Mr. STANTON to deliver to GRANT all records, books, papers, and other public property now in his charge.

Mr. STANTON denied the right of the PRESIDENT to suspend him from his Office without the consent of the Senate, and without legal cause; but inasmuch as Gen. GRANT had been appointed Secretary of War *ad interim*, and had notified him of his acceptance, he stated that he had no alternative but to submit, under protest, to superior force.

General GRANT in notifying Mr. STANTON of his acceptance said he could not let the opportunity pass without expressing his approbation of the zeal, patriotism, firmness and ability with which he had ever discharged the duties of Secretary of War.

The right of suspension, exercised by the PRESIDENT, is given in the Civil Tenure Act in these words:

"That when any officer appointed as aforesaid, excepting Judges of the United States courts, shall, during a recess of the Senate be shown, by evidence satisfactory to the President, to be *guilty of misconduct in office, or crime*, or for any reason shall become *incapable* or *legally disqualified* to perform its duties, *in such case, and in no other*, the President *may suspend* such officer and designate some suitable person to perform, temporarily, the duties of such office until the meeting of the Senate," &c.

If the PRESIDENT fail, when called upon, to prove that Mr. STANTON was guilty of "misconduct in office," or "crime," or had become "incapable," or "legally disqualified," he will be held guilty of an impeachable offence in making this suspension.

One account states that the PRESIDENT has telegraphed to Gen. SEADMAN, of New Orleans, to come on and take the War office. But it appears more probable Gen. GRANT will be retained in it, at least for the present.

GRANT'S assignment to these duties cannot but prove embarrassing to him, and this is, without doubt, the purpose of the PRESIDENT in assigning him. He is charged by the late Reconstruction Act, with duties additional to those belonging to his military position. It is the manifest purpose of the PRESIDENT to try to check him in the performance of them, by establishing between them personal and official relations of an intimate character. How far Gen. GRANT may be swerved from an independent and fearless line of policy, remains to be seen. We believe, he will be fully equal to the occasion; and that the PRESIDENT has won a barren victory.

The effect of the deposition of Mr. STANTON will be to stimulate the worst passions of the South, and to delay Reconstruction. It will increase the influence of the worse men of that region, and will bear a crop of mischief.

It is given out, that General SHERIDAN is next to fall; and after him, Judge HOLT. All these wrongs tend to force the ultimate, and only adequate remedy—the impeachment and removal of the PRESIDENT, to which Congress may be expected to address itself on its meeting in November next.

ACCOUNTS have been recently printed of suffering among freedmen in Virginia. We see it stated that General SCHOFIELD has ordered that after the 20th instant all the destitute in Virginia shall be turned over to the Overseers of the Poor, in the respective counties and cities.—The Freedmen's Bureau rations will no longer be issued. Some of the Democratic papers have been denouncing the Government for feeding the destitute and suffering in Virginia, and complained of the expense involved in this act of humanity. It is doubtful whether they will have the manliness to state that, at length, the people of those districts are hereafter to take care of their own poor.

THERE was a prospect at one time of a split among the Republicans of California, on the nominee for Governor made by the regular Convention. At an independent Convention, Hon. JOHN BIDWELL late M. C., was nominated; but declined and advised his friends to support Mr. GORHAM. The prospects now are that all differences will be harmonized, and the "Golden State" be kept secure in the Republican phalanx. The record of the Democracy of California throughout the War was so offensive that the Republican masses buried all differences in the presence of a common danger, and to save the State from a threatened disgrace.

THE Kentucky election for State officers resulted in the election of the Secession Democratic candidates over the Republican and the National Democratic. The majority is about as large as at the Congressional election. Kentucky is one of the only three States left to the party which, but a few years ago, wielded the destinies of the Republic.

THE Democratic party nominated Judge HUTCHINSON, and intend trying to elect him. *Why?* In order that the Supreme court of the State may thereby remain Democratic, and pledged by every sentiment to decide *political questions* in conformity with the views of that party.—Yet their State Committee affect great horror at us for trying to do the same thing!

IF the Democratic State Committee think it improper to give a majority of the Supreme Court to either party, why do they insist upon the election of the Democratic candidate?

MINISTERS' SALARIES.

Hon. Amasa Walker, of Massachusetts, formerly Representative in Congress and an industrious writer on economic subjects, has recently been investigating the salaries of Ministers in the United States; and from one thousand replies received, is convinced that more than three fourths of all the ministerial salaries are less than $1,000 per annum, and a large number vary from $350 to $700. He has embodied his conclusions in a letter to the *Congregationalist*, from which we quote:

"In reply to a request made through your journal in February last, that clergymen of different denominations would favor me with a statement of their salaries in 1860 and 1865, in order to ascertain what had been the advance made in consequence of the depreciation of the currency, I have received, in various ways, answers that include the salaries of 1,000 ministers of eight different denominations, residing in eighteen States, varying in amount from $350 to $5,000 per annum. Of the whole number furnished, 450 communications stated the facts so fully and explicitly as to enable me to give the following results:

Average salaries in 1860	$772.38
Average salaries in 1865	907.23
Average gratuities per year	32.17
Average advance in salaries for 1860 to 1865, per cent.	17.4
Average advance in salaries and gratuities, per cent.	21.7

From the remaining 550, not so definitely reported, the evidence is sufficient to show that the average advance is something less than that before stated, (eight counties in Connecticut, for example, giving an advance of but 15 per cent.,) so that we shall be safe in assuming that the whole average advance in the salaries of 1,000 ministers of the Congregational, Methodist, Baptist, Unitarian, Universalist, Episcopal, Presbyterian and Lutheran denominations, is not, at the largest estimate, over 20 per cent., extra gratuities included. And we may pretty safely assume that this is near the general average as applied to the clergy of the loyal States generally. If so, we are able to arrive at certain conclusions:

First, That the salaries of clergymen have not been increased in proportion to the greater cost of commodities, the latter having advanced at least 100 per cent.

Second, That salaries have not been increased as much as the wages of labor in general, because the latter advanced 50 per cent. between 1860 and 1865, as ascertained from various sources.

Third, That salaries were not enhanced so much as the profits of trade and manufactures, which, between 1860 and 1865, are known to have increased some 100 per cent.—that is, they were about doubled in amount.

Fourth, As a conclusion, that the clergy as a body must have made a greater sacrifice of pecuniary interest than any principal class of the community.

MODERN DEMOCRACY appears to represent everything and anything. The South Carolina Democrats have proposed a bargain with the colored voters of that State by which the candidates of the former for State offices, and of the latter for Members of Congress are to be jointly supported by the combined vote of the two classes. The *Boston Post*, the organ of the New England Democracy repeats its familiar views:

"We have urged the North again and again to make its citizens equal before the law and before the ballot-box. We should be glad to see the Massachusetts Suffrage law adopted by every State in the Union. No matter what a man's color or size may be—if he can read or write, is twenty-one years old (we have no objection to eighteen), and so forth—let him vote."

So, the case stands thus; The New England Democrats are for colored suffrage, qualified by an intelligence test.—The South Carolina Democracy as appears above are for unqualified suffrage. The Michigan Democrats stand by them. The New York Democracy are uncertain how to range themselves. And the Pennsylvania Democracy are flat-footed against any recognition of the inevitable issue of the present controversy.

If, after such an exposure of inconsistencies anybody can tell what the Democratic party mean by their policy, which they ask the people to endorse, we would be glad to have an intelligible statement of it.

WHILE the Northern Democrats are exhausting themselves, as of old, with denunciation of the colored people, the Southern Democrats are calling upon them to rescue the South from "Radical domination." They not only call upon colored men; but in Tennessee they called upon one formerly a resident of this State, named JOE WILLIAMS, once of Middletown, who stumped a large part of Tennessee for Etheridge and other Democratic candidates. JOE's arguments proved to be of little avail, for Etheridge hardly got votes enough to prove that he was a candidate. The Harrisburg *Telegraph* gives this pleasant account of this new Democratic orator:

"It will be remembered by our readers that this same Joe Williams, of Middletown, some years ago, was, with his father, mother and sister, bought from slavery by the contributions of the people of this county, from a slaveholder in Maryland. Joe afterwards proved to be a lazy, good-for-nothing rascal, and was driven away from home by his father. He served out one sentence in the Lancaster county jail, and one in our Dauphin jail.—Some time in 1856, Joe disappeared for a couple of years, at the end of which time he turned up with a book styled the "Rights of Humanity," peddling the same through the State. He was afterwards engaged in the Hayti emigration swindle, also in the Liberian colonization fraud. When the war broke out he enlisted in the United States army, and by some means, managed to evade all engagements with the enemy, and was finally put *hors du combat* by being wounded in a bawdy house at Petersburg, Va.

THE Maryland State Constitutional Convention lately adopted a Bill of rights, a section of which declares that slavery shall not be established in Maryland, and compensation is demanded from the United States for its abolition. This would be the rallying-cry of the Democracy in all the Border Slave States, if there was a chance of Democratic domination in the government. As it is, they kindly give us notice what they will demand whenever, if ever, their friends get power.

These who desire to add several hundreds of millions to the indebtedness of the nation, should vote the ticket desired by the Democratic rebels of Maryland.

JUDGE HAMPTON of Pittsburgh has recently paid a very handsome tribute to Hon. H. W. WILLIAMS, whom he has known for twenty-eight years, and of whom he speaks "with perfect confidence as to his character, talents, legal learning, and integrity." His moral character is beyond reproach; and to his legal learning the highest tributes have been paid by Democratic lawyers. The editor of the *Legal Journal*, a Democrat, eulogizes him as distinguished for a cool, calm, unwavering carriage, a stern determination to do justice, and a clear and well-balanced judgment.

FOREIGN NEWS.

KOSSUTH declines a seat in the Hungarian Parliament.—General Asboth, United States Minister to Buenos Ayres, has been unsuccessful in his offer of the mediation of this Government in the war waged against Paraguay by the allied powers of the Argentine Republic, Brazil and Uruguay. The offer was originally made in March, and at that time rejected; but the Argentine Secretary, making use of expressions which might be construed into an acceptance, upon modified conditions, General Asboth adroitly renewed the proposal, and was met with a point-blank refusal. The result of this fruitless intervention has been the giving to the combatants further time for preparation. They must now fight it out to the end.—A movement is on foot in South Germany among the Liberals, for a union with the North German Confederation.—It is positively denied in Copenhagen that the Government of Denmark has any intention of entering into negotiations for the sale of the Island of St. Thomas.—It is said that since hearing of his brother's death, the Emperor of Austria has declared that he never will sign another death-warrant. Pity his Majesty had not come to that decision sooner—say just after the surrender of Vilagos.—A terrible railroad casualty occurred at Brayhead, Wicklow county, Ireland, on the 9th inst. The express train from Dublin for Wicklow, when at the above-named locality, ran off the track, and three passenger coaches were precipitated into the sea. The railroad at that point runs along the summit of a high bluff. The loss of life was frightful. Four persons were killed outright. Only one person in the whole train—a man named Morris—escaped uninjured.

THE CROPS.

The July report of the Agricultural Department presents a favorable prospect for uniformly good crops. The crop of 1859 was five and a half bushels of wheat to each person; this year, it will be about six.

WHEAT.—All the States except Vermont, New York, and Pennsylvania show an increase over last year.

CORN.—The average is unusually large, every State showing a material increase except Maine, New Hampshire, New York and South Carolina. In the Southern States the increase ranges upward to 102 per cent., as in Arkansas. The condition, as reported, is a little deficient in the Northern and Western States on account of the lateness of the spring. With the continuance of the present weather there is ample opportunity to make up the entire deficiency, in which case the yield will be unprecedented.

OATS.—The condition of Oats points to a full average in the West, particularly in Wisconsin and Minnesota; also in Massachusetts, R. Island, Connecticut, New Jersey, and the South—slightly less than last year in Maine, Vermont, New York and Kentucky.

PASTURES AND HAY.—These crops are universally large from an average up to 15, 20, and even 30 per cent. above.

POTATOES.—The report of the acreage of potatoes indicates a larger area planted in every State except Maine and New York. The condition is also above an average, with a few exceptions, among which are New York, Ohio and Indiana.

FRUITS.—Peaches are so exceptional in their successful seasons and localities that estimates for States can scarcely be made with accuracy. New Jersey, as indicated by very general returns, shows 63 per cent. improvement over last year; Maryland 25; Delaware 150; Virginia 35; Michigan 127. In other States estimates are given upon whatever data was received generally showing a considerable increase over last year.

APPLES.—Are promising in portions of New England, the Alleghany region and the West.

GRAPES.—Are more uniform in average of States, generally appearing unusually well.—It has been a more successful year for strawberries than usual.

SORGHUM.—The sorghum crop is generally returned in comparatively poor condition with lower figures than any other crop. Ohio and Indiana indicate a deficiency in average of 14 per cent., and in condition 10 per cent. All the principal sorghum growing States show a similar state of facts.

Horrible Suffering at Sea.

NEW YORK, August 8.—At the semi-monthly meeting of the Commissioners of Emigration yesterday afternoon, a committee reported upon the case of the Austrian ship Guiseppe Baccarich. The report says that the death of nineteen of the passengers of the Baccarich was owing to the deficiency and bad quality of the food supplied and to the poisonous water given for use. The ship had neither tea nor sugar, physician nor drug-store; the bread was mouldy and unfit for use, and the potatoes were bad. The report charges that these deaths were so many murders, seventeen of which occurred on the passage from Antwerp and two while the ship was in quarantine here after her arrival. A. Strauss & Co., shippers at Antwerp, are very severely censured, and the committee arraign them as especially guilty of murder. Strauss & Co. are said to have borne a long time a very bad reputation in their business, and more than once several German societies have warned their brethern against trusting themselves in Strauss & Co.'s ships. When the Baccarich was quarantined twenty-four sick passengers were at once placed in the hospital ship, and they speedily recovered. All the surviving passengers have been informed of their legal right to obtain redress for the wrongs inflicted upon them, and many of them have already taken steps towards that end. The report of the committee is presented to the Consuls of Belgium, Austria and Prussia, that the Governments of these countries may understand the state of the case, with a view to their taking such action as they may deem fit.

A FORGED article, abusive of Pennsylvania and its people, has been published in several of the leading Democratic papers of the State, credited to the Salem (Mass.) *Journal*, alleged to be a Republican paper.

There is no such paper; and the article is a mean forgery, prepared in the hope that its circulation might do harm to the Republican Party.

If there ever was a time when such tactics made votes, it has passed, and forever. If Democratic Editors had confidence in their principles, or the strength of their cause, they would hardly insult public intelligence by resorting to such unworthy means.

Probably, the author of this felt encouraged by previous achievements in the same line. In 1864, two young men, writers on the N. Y. *World*, got up a pamphlet entitled "*Miscegenation*," which was attempted to be palmed off as a Republican campaign document, and was used as such by Democratic stumpers all over the country. It was filled with statements and reasonings adapted to Democratic necessities. *After* the election, the authorship was avowed and the forgery confessed. The unprincipled attempt then failed, as this smaller meanness will now fail, to drive the voters from the Republican cause, which is still, as it was during the whole war, the cause of the Country.

SAMUEL B. ANDLEY BROWNE, D. D., has accepted the Presidency of Westminster College, of Dorcaster county.

GENERAL NEWS.

THE great Horse Fair began yesterday in Buffalo, N. Y.

MRS. Elizabeth Eagle, aged 93, the oldest lady in Harrisburg, died on the 5th.

COL. E. C. Camp of Washington City, well known to the Volunteer army, died last week.

ABBEY FOLSOM, for many years conspicuous at the anti-Slavery and other progressive meetings, died in Rochester, N. H., on the 8th inst.

IMPORTANT tin mines have been discovered in Missouri, and a "tin fever," almost equal to the "oil fever" of a recent period, is the result.

THE Sprague's of Rhode Island are estimated by the correspondent of the Hartford *Courant* to be worth twenty-five millions of dollars. They are the manufacturers of their own fortune.

REV. J. G. Morris, D. D., of Baltimore, has resigned the Librarianship of the Peabody Institute, and accepted a call to the pastorate of the 3d English Lutheran Church, of Baltimore.

A PITTSBURGH paper frankly confesses that "the possession of a nose is a misfortune" in that city. "The abominable odors are numerous, pronounced, emphatic, intrinsic and all-pervading. There is no escape from them."

THE members of the Indian Commission have made arrangements for conferring with the Indians, and it is hoped peace may result. It has been ascertained that many of the predatory bands are headed by whites for purposes of plundering.

EX-GOV. David R. Porter died on the 6th, in Harrisburg, after a brief illness, in his 79th year. He served in both branches of the Legislature, and was elected Governor in 1838 and 1841, having defeated Gov. Ritner at the former election, and John Banks of Reading at the latter.

GENERAL BEAUREGARD has organized at New Orleans the "Electrical Brake Company of America," of which he is President, and Colonel Blanton Duncan, of Delaware, Superintendent. It is claimed that a railway train running 44 miles an hour can be stopped by electricity between 50 and 100 yards.

THE editor of the New Castle *Gazette* (democratic) has been to Philadelphia, to see if he could draw any consolation from the political aspect as presented in that section of the Commonwealth. After surveying the field, he exclaimed in agony of spirit, "Oh, Lord! how *long*?" We suspect he will wait a good while before getting an answer to suit him.

THE next State election will be in Vermont on September 3. California will follow on September 4, and Maine on September 9. On October 8, Pennsylvania, Indiana, Ohio and Iowa will vote; and on November 5, New York, New Jersey, Delaware, Massachusetts, Michigan, Wisconsin, Minnesota, Illinois, Kansas, Missouri and Nevada. Colorado will close the list of elections on November 12.

THE Constitutional Convention of Maryland has passed a resolution to adjourn *sine die*, on the 15th. It is supposed the $125,000 appropriated by the late Legislature for its expenses, are nearly exhausted. The Convention adopted the present system of Orphan's Courts for the counties and the city. The Judges are all to be elected for four years. Registers of Wills are to be chosen for two years, and are to be elected at the same time as members of the Legislature. Sheriffs are to be elected for two years, as at present. Instead of four years as recommended by the report of the Judiciary Committee. The Constitution is to be submitted to popular vote September 25.

THE Democratic papers of Pennsylvania have suddenly discovered that it is a terrible crime for judges to be in accord with the political sentiment of the age. The Dred Scott decision they regard as the perfection of human reason, and they could not sufficiently praise the long line of pro-slavery monsters who systematically divorced law from justice because the exigencies of Democratic politics required barbarous and tyrannical decisions. They complain only when it is proposed to administer laws in the interest of Liberty and Loyalty.

A LARGE number of the Southern papers reprint the report of the reception of JEFF DAVIS at the Theatre Royal, Montreal. They seem delighted to know that in Canada there were loud calls for the "Bonny Blue Flag," "Dixie," and "other standard rebel songs," and that "excitable John Bulls shouted so as to be heard above the tumult, 'we shall live to see the South a nation yet.'" We commend to them also, the account of JEFF's reception in Vermont, published in last week's STAR AND SENTINEL.

THURLOW WEED, after a two weeks' fishing tour with Secretary Seward, thus speaks of the Democrats: "The progress of reconstruction in the South, however tardy, has developed one significant political fact, which is, that the Rebellion has proved fatal to the Democratic party. Southern Democracy and slavery occupy a common grave. Political organizations will take any form but that." The early admonition of Governor ORR on this question was even more significant than was at first supposed. Hateful as "Black Republicanism" was to the South before the war, it is quite as comely in their eyes now as Democracy. So marked is the aversion of Southern Democrats to their former Northern allies, that the fact cannot be ignored."

IN the SURRATT case, Judge FISHER delivered his charge to the jury, on the 7th, and the jury retired to deliberate on their verdict. On the 10th, the jury returned to the court-room, stating that they were nearly equally divided, and could not possibly agree upon a verdict, and asked to be discharged. They were accordingly discharged; and the prisoner was remanded to the custody of the Marshal. It is understood a new trial will be had in December next, prior to which time, as the law now stands, a legal jury cannot be empannelled. The jury stood from the beginning of their deliberations, 8 for acquittal, 4 for conviction. The main point of difference was as to Surratt's presence in Washington on the day of assassination. After the discharge of the jury, Judge FISHER ordered the name of JOSEPH H. BRADLEY, Esq., senior counsel for defense, to be stricken from the roll, for an attack made in the court room upon the Judge on the 2d of July last, during the trial. Bradley then gave the Judge a challenge to fight a duel. All the Southern-born men on the jury, were for acquittal. The trial lasted nine weeks.

THOSE in favor of making Greenbacks and National Bank Notes as worthless as the Continental money of olden times, should vote for Judge Sharswood. He says that gold and silver is the only legal currency, and that all paper money—even that issued under authority of the National Government, is *trash*.

THE opinions entertained by Judge Sharswood on the "legal-tender" question, which were very imperfectly known at the time of his nomination for the Supreme Bench by the Democratic Convention, are now becoming generally understood by the people all over the State. We cannot afford to put a Judge upon the bench of our highest Court who has already declared that our whole financial system is unconstitutional and void. This is a subject that directly affects every man's pocket, no matter what his politics may be, and as such the people now comprehend it. To strike down our legal-tender money, when it is in the pockets of every one of us, will hurt Democrats just as much as it will Republicans, and neither can afford to have it so.

PROCEEDINGS OF THE BOARDS.

We annex a statement of the general action of the Boards of the Seminary and College, at their recent meetings:

SEMINARY BOARD.

The attendance of the Board of Directors of the Theological Seminary, and of the Board of Trustees of the College, was unusually full, and the action in both Boards important.

In the Seminary board, a proposition was introduced to consolidate the Theological Seminary at Selinsgrove with the Institution at this place. The theological basis of both Institutions is that of the General Synod of the Lutheran Church. The proposition was favorably received, and a Committee appointed to negotiate with Selinsgrove on a basis of Union.

The following appropriate resolutions on the death of Dr. Krauth were adopted, and a Committee appointed to raise funds to erect a monument to his memory:

The Committee appointed to prepare resolutions expressive of the estimate in which this Board held its late Professor, the Rev. Dr. KRAUTH, and of its sincere condolence with his family and relatives at his lamented death, beg leave to propose the following:

Resolved first, That whilst we cannot but recognize the goodness of God in not removing by death any of our Professors during forty years of the Seminary's existence, not even interrupting the regular course of lectures for any considerable time by reason of their sickness, we would now humbly bow to His Sovereign rule, who has in this way for the first time afflicted our institution.

Resolved second, That the unaffected piety, extensive attainments, the entire consecration of his talents and influence to the welfare of the Seminary, his faithful and conscientious discharge of duty, his bland and amiable disposition, and his eminent social qualities have ever commanded our exalted admiration, and his death has occasioned us the most heart-felt grief.

Resolved third, That the unswerving adherence of our deceased associate to the views and sentiments of our church, as held by the General Synod, amidst a tendency to impose upon us a Lutheranism different from that maintained by our fathers, encourages us to stand fast to the principles and practices we have espoused.

Resolved fourth, That whilst we his cotemporaries will ever cherish with pleasing recollection the image of his manly features, yet in order to transmit to those who may come after us, and thus for many years preserve in this the field of the most active labors of his life, the memory of his valuable services, the sum of fifty dollars, raised by private subscription, be appropriated for a photograph likeness of large size, to be suspended in the Seminary Chapel.

Resolved fifth, That an amount sufficient to erect a monument or memorial grave, be raised by voluntary subscriptions, and that a committee consisting of Rev. Drs. BAUM and MORRIS, Messrs. M. BUEHLER, D. A. BUEHLER, and Dr. H. S. HUBER, be appointed to collect the money and erect the monument.

The election of a successor to Dr. Krauth was postponed, to await the result of the negotiations with Selinsgrove, and the duties of his chair for the present will be devolved upon the remaining members of the Faculty. D. Hay will give the requisite German instruction.

Drs. Conrad and Brown made encouraging reports as to the progress of the endowment effort, which will be continued until sufficient funds are realized to meet the wants of the Institution. To further this end in part, arrangements will be made for the celebration of the 350th Anniversary of the Reformation, which will occur on the 31st of October next. It is proposed to have exercises appropriate to the occasion extend throughout the year, with systematic contributions to the various benevolent objects claiming the attention of the Lutheran church, including its Theological and Literary Institutions.—The arrangement contemplates this celebration being carried through all the Synods, East and West, connected with the General Synod.

Rev. Dr. Schmucker, of this place, was chosen to deliver the next "Holman Lecture on the Augsburg Confession."

COLLEGE BOARD.

In the College Board, Rev. Victor L. Conrad, of New York, was unanimously elected Professor of Natural Sciences, to fill vacancy occasioned by resignation of Prof. Mayer.—Prof. Conrad is an alumnus of the Institution, and an accomplished scholar. A lover of nature in all her wonderful works he enters upon his professorship as an enthusiast in the studies connected with his Chair. His qualifications for the position may be inferred from the part which he has taken in the preparation of the capital work on Household Science.

The nomination of Rev. H. N. Ries, by the Pa. Synod, as Franklin Professor, to fill vacancy occasioned by resignation of Professor Muhlenberg, was not confirmed. A resolution was adopted to the effect that the failure to confirm this nomination did not originate in any objection to the personal character of the nominee, but in a conscientious conviction that he would fail as an instructor and would not meet the demands of the Institution. The Pennsylvania Synod was requested to take immediate steps to make a new nomination. In the meantime Dr. Baugher and Prof. Ferrier are to take charge of the Greek Department, by resolution of the Board.

The Faculty were directed to give increased attention to the rule excluding partisan politics from the public exercises of the Institution.

Prof. Ferrier having submitted to the Board, the call to him to become Pastor of the Presbyterian congregation in this place, after full discussion and interchange of views, the following Resolution was unanimously adopted, viz:

Resolved, That in view of the increased duties devolved by the Board upon Professor Ferrier, in connection with instruction in Greek, the Board do not feel justified in consenting to the proposed arrangement with the Presbyterian congregation of Gettysburg.

It was determined to erect two additional Professors' dwellings on the College campus, and the Committee on Preparatory building instructed to prepare a plan, receive proposals, and proceed to build at once.

Samuel Appold, Esq., of Baltimore, was elected Trustee in place of Dr. Krauth, deceased.

SEMINARY ALUMNI.

After the delivery of the Alumni Address, on Tuesday evening, a meeting of the Association was held. The officers are Rev. Dr. Conrad, President; Rev. Dr. Baum, Secretary, and Rev. Dr. Hay, Treasurer.

The most important business transacted was the inauguration of a plan to enlist all the churches of the General Synod of the Lutheran church in this country in a semi-centennial jubilee, in honor of the seventh semi-centennial anniversary of the Reformation. It is proposed that the great principles of the Reformation be discussed, and that free-will offerings be gathered from every individual connected with these churches, to be appropriated, according to the preferences of the contributors, to the various benevolent operations of the church. From the enthusiasm with which this movement was hailed in the Association, and the cordiality with which it was seconded by the Directors of the Seminary on the day following, it is confidently expected that the action of the Synods now about to meet will be such as to bring the matter to the attention of all the ministers and people, and enlist them all heartily in this great undertaking.

Rev. S. A. Holman was chosen the next Alumni speaker.

COLLEGE ALUMNI.

The Association met on Wednesday evening, after the Address of Professor Conrad. The Obituary Record of the past year was read by Dr. Stoever, and included notices of Rev. William H. Harrison, D. D., of Cincinnati, of the class of 1843, and of Robert G. Harper, jr., of the class of 1850. A sketch was also given in the Report, of the Rev. Dr. Krauth, the first, and for fourteen years, President of the College, who died during the year.

Hon. Edward McPherson, from the Committee on the services of the Alumni during the War, made a Report, which was received, and ordered to be printed in the Decennial report of the Association, to be issued in 1870.

Dr. Stoever reported from the Committee on Endowment of the Alumni Professorship, that $7,045 had been subscribed, of which $3,125 were paid into the Treasury. The Committee was directed to prosecute its labors.

The orator chosen for next year, is Rev. George Parson, of Milton.

The following Minute was adopted, on motion of Mr. Holman:

Whereas it is contemplated to make an effort to aid the various religious and educational Institutions in connexion with the Evangelical Lutheran Church, during the Seventh Semi-Centennial Celebration of the Reformation, which is to commence on the 31st of October next; Therefore,

Resolved, That we earnestly urge upon the Alumni of the College to remember the endowment of the Alumni Professorship.

The officers chosen for the ensuing year are:

President—Hon. Edw. McPherson, LL.D.
Vice Presidents—Charles Hay, M. D., A. M., Washington, D. C., and Rev. H. L. Baugher, D. D., and Rev. H. L. Baugher, jr.
Secretary—Prof. M. L. Stoever, Ph. D.
Treasurer—H. J. Fahnestock.

The Committee of Arrangements for next year, are: Col. E. G. Fahnestock, Prof. Luther H. Croll, and Dr. Charles Horner.

"THE REVELATOR."—The Commencement exercises passed off pleasantly and to the satisfaction of the unusually large number of visitors. The only thing to mar the pleasantness of the occasion was a grossly libelous publication with the above name, on Thursday morning, assailing some of the most respectable members of the Faculty, with a wholesale denunciation of the character of the Students and the Institution generally. Publications have occasionally made their appearance at previous Commencements, which had some literary character and wit to commend them to attention. This one had not even these redeeming features. Low in taste, vulgar in style, malignant in spirit, teeming with libelous caricature, falsehood and blasphemy, its authors judiciously availed themselves of the darkness of the night to scatter it through the town. Its only effect in this community, was to develop a deep feeling of indignation, and we allude to the matter simply to characterize the outrage as it deserves. The aim of the author was evidently to injure the College and wound the feelings of some of the Professors, especially those upon whom the duty had recently devolved of disciplining several refractory students. The excessive malignancy and low vulgarity of the attack, however, must have the effect to defeat the design.

THE AGRICULTURAL FAIR.—Work on the Fair Ground is pushed with vigor, a large force of hands being daily employed. The foundations for the main hall will soon be ready for the superstructure, whilst the other large building is about finished. The fencing and shedding are steadily going up, and a well is being sunk near the front.—The lake in the rear is done, and nearly or quite full of water. The track only needs a few finishing touches. It is not doubted that everything will be ready by the time announced for the Fair, September 24th, 25th, 26th and 27th.

The indications are that the exhibition of articles will be full and creditable, and the attendance very large.

The posters and premium lists will be out soon.

Those desiring ground for refreshment stands should not fail to attend the letting on Saturday the 7th of September.

TO GUNNERS.—For the benefit of sportsmen we publish the following extract from the Game Law as passed by the Legislature of this State:

Section 2.—That from and after the passage of this Act, no person shall shoot, kill or otherwise destroy any pheasant between the 1st day of January and the 1st day of September, or any squirrel between the 1st day of January and the 15th day of August, or any woodcock between the 1st of January and the 4th day of July, or any patridge or rabbit between the 1st day of January and the 1st day of November, under the penalty of $5 for each and every offense.

☞ The Pic Nic in Cunningham's woods, Freedom up, on Saturday last, was a large and pleasant affair. The company were not disturbed by rain, which fell so heavily in this neighborhood. It was a matter of deep regret to us that imperative duties and engagements prevented us from attending, as had been our purpose.

TEMPERANCE MEETING.—Rev. G. D. Chenoweth, Corresponding Secretary of the State Union Temperance Society of Pennsylvania, will hold a Convention on Wednesday, August 14th, in the Methodist Church, Gettysburg, at 2 o'clock P. M. A representation of all the Temperance Organizations of the county is requested.

A SON of Jesse Reynold, of Washington tp., while unloading hay, with a patent screw fork, when the key accidentally slipped and the fork flew out, was thereby thrown from the wagon to the floor on his head, and the fork inflicted a wound of about five inches in depth in his side, just below the arm. The wound, in connection with the concussion of the fall, caused the unfortunate man much pain, and great fears were entertained that his injuries would have a fatal tendency, but we are pleased to learn that he is now doing well under the circumstances.

TENNESSEE CONSERVATISM.—It has become the fashion to decry the "Brownlow Government" as a miserable despotism, and to describe the Rebels in Tennessee as the most patient, abused, and long-suffering people on the face of the earth. Now this is all bosh. After Lee's surrender the Rebels returned to their homes, regained immediate possession of all their property, except their slaves, and have been enjoying undisturbed possession of it ever since; and at the very first general election that occurred they showed their appreciation of the generosity with which they had been treated by taking possession of nearly all the offices of trust and profit in the State, which they are holding now. The mayors and recorders of our cities, boards of aldermen, sheriffs, county court clerks, magistrates, constables, jail keepers, etc., etc., are all, or nearly all either returned Rebel soldiers, or stay-at-home Rebel sympathizers. These offices, in many cases, were filled by men who had not yet doffed the gray uniform; and yet these returned Rebels, with fat salaries, cry themselves hoarse about the despotism of the "Brownlow Government." The truth is, if we may except the State Government, with its few beggarly offices, the Radicals have next to nothing in the State. They are standing afar off, while the Rebels pocket the fat salaries, and howl over their wrongs. And what are their wrongs? Simply this: that they are not allowed to take control of the State Government. When Tennessee was readmitted into the Union it was the understanding that the State government should remain in the hands of loyal men until equal rights should be established. William G. Brownlow is faithful to his pledges. That is his crime. Nothing more.

MONEY.—Men work for it, beg for it, steal for it, starve for it, and die for it; and all the while, from the cradle to the grave, nature and God are thundering in our ears the solemn question: "What shall it profit a man if he gains the whole world and lose his own soul?" The madness for money is the strongest and lowest of the passions; it is the insatiate Moloch of the human heart, before whose remorseless altar all the finer attributes of humanity are sacrificed. It makes merchandise of all that is sacred in the human affections, and even traffics in the awful solemnities of the eternal.

IT will be a good thing for the brokers and bankers if Sharswood gets to be Judge of the Supreme Court. The first thing he and his Democratic colleagues will do will be to break down the National Banks, and put Government bonds and notes at a ruinous discount. This will afford fine pickings for the brokers, and will eat banks on the old system will start up in every city, town and village.—Bank note lists and counterfelt detectives will be in greater demand than ever about those times.

WISTAR'S BALSAM OF WILD CHERRY.

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail in our changeable climate at all seasons of the year; few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy: however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.

MR. JOHN BUNTO,
Of BALDWIN, CHEMUNG COUNTY, N. Y.—writes:

"I was urged by a neighbor to get one bottle of the Balsam for my wife, being assured by him that in case it did not produce good effects, he would pay for the bottle himself. On the strength of such practical evidence of its merits, I procured a bottle. My wife at this time was so low with what the physicians termed Bronchial Consumption as to be unable to raise herself from the bed, coughing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottle was entirely used, she ceased coughing and was strong enough to sit up.—The first bottle entirely RESTORED HER TO HEALTH, doing that which several Physicians had tried to do but had failed."

CONSUMPTION CURABLE BY DR. SCHENCK'S MEDICINES.

TO CURE CONSUMPTION, the system must be prepared so that the lungs will heal. To accomplish this the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by those medicines will be digested properly, and good healthy blood made; thus building up the constitution. DR SCHENCK'S MANDRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is nutricious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, whole some blood made, which will repel all disease. Patients will take these medicines according to directions Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive that a cathartic is required, for sometimes in diarrhœa they are necessary. The stomach must be kept healthy, and an appetite created to relish the Pulmonic Syrup so on as the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the open air as much as possible, eat all the richest food—fat meat, game, and, in fact, anything the appetite craves; but be particular and masticate well. [Oct. 25, 1866.—weny

OFFICIAL—PARIS EXPOSITION, 1867.—Advices just received by mail enable us to announce positively that the *only gold medal* for American sewing machines awarded to Elias Howe, Jr., as the manufacturer of the best sewing machine that was exhibited. There were eighty-two different machines in competition in Europe, and Mr Howe received the additional award of the Cross of the Legion of Honor, as manufacturer and inventor.—The exact wording of the award is as follows:

HOWE MACHINE, WHEELER & WILSON.
"Co-operateur, Elias Howe, Jr., promoteur de la machine a bouton-niere.—Machine a coudre. *Medaille d'or.*"
"Medaille d'or."

The official list of those who were made Knights of the Legion of Honor in the list of exhibitors papers, reads thus: "Mons. Elias Howe, Jr., *fabricant de machines a coudre, exposant*;" which, translated into English, reads: "Mr. Elias Howe, Jr., maker of sewing machines, exhibiting."

From this it will be seen that the medal awarded to Wheeler & Wilson was for a "*guttonhole Machine*," and *not for the Sewing Machine*.

Each of these world-renowned machines bears the medallion head of Elias Howe, Jr., trade mark, without which none are genuine. Messrs. Sibley & Coope, Agents, No. 922 Chestnut street, Philadelphia. [July 31.—tf

NEW WORK ON SINGING.
BASSINI'S
Twenty Melodic Exercises,
IN FORM OF
SOLFEGGIOS FOR SOPRANO OR MEZZO SOPRANO VOICES,
INTENDED AS
Studies to acquire the Art of Singing.

"These exercises were composed to be used simultaneously with his system, "THE ART OF SINGING," or with any *other method* for the cultivation of the voice, and will take the place of CONCONE'S SOLFEGGIOS; being more melodious and better adapted for teaching.

"Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile*, which secures the interest as well as the improvement of the students. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and the appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which these are accomplished depends the actual sterling advancement of the pupil; any evasion or stinting in these respects is time and effort utterly wasted, while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and facility, and open to the student the means and resources by which great artists produce their most brilliant and profound effects.—*Watson's Art Journal.*

THE GROVER & BAKER.

THE BEST IN USE.—These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only Machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without winding, and are simple in their construction. They are easy to manage, and can be stopped in a instant, and will do any work perfect machinery now employed in these mills.

Agricultural Implements.

BRINKERHOFF'S
CORN SHELLER, SEPARATOR AND CLEANER.

The undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition. One important feature in this machine is that it will shell ears large, small or crooked, perfectly clean, and separates the cob and chaff from the Corn ready for market.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune; S. Edward Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the N. Y. *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufacturers more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleanses, rapidly and easily, at one operation, as fast as the ears can be put in the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.
